

## HIGHTEC FORM NMU 150

Multi-functional product for cold forming of large parts

### Description

HIGHTEC FORM NMU 150 is a water-immiscible, chlorine-free, mineral oil-based, multi-functional oil. Due to the high polarity of the substances, it is particularly suitable for use as both a bed way and cold extrusion oil at the same time.

### Application

HIGHTEC FORM NMU 150 is easy to apply. It can be applied onto the workpiece to be machined by spraying, flow coating, immersion or rolling.

### Benefits

- Versatile metal forming lubricant, also suitable as a bed way lubricant
- High lubricating performance
- High level of wear protection for the tools
- Very good compatibility with all tool coatings
- Good corrosion protection properties

### Recommendation

Field of application:

- Cold extrusion and bed way
- Deep drawing, pressing, punching

HIGHTEC FORM NMU 150 is suitable for machining steel, stainless steel, aluminium and non-ferrous metals.

### Notices

Storage:

When stored in dry, frost-free rooms and in original, unopened containers the storage period is: 36 months  
Temperature range: 0-40°C

Degreasing:

HIGHTEC FORM NMU 150 can be degreased using conventional degreasing media, for example by spray cleaning or immersion cleaning in aqueous-alkaline cleaning agents.
